## Summer Games Mascots

The three mascots, Zippy, Peppy and Bolt have been very active visiting communities and events weeks prior to the games officially opening.

These creatures were inspired by their ability to represent all athletes for this year's summer games. The NL Summer Games is all about our athletes and we feel these colourful mascots certainly bring that to life. Peppy is seen here in green and this mascot characterizes the energy athletes exude as they take on their chosen sport. Bolt is blue and represents the electricity that our athletes create as they compete and the surge of energy they give to us. Zippy is in orange and represents the fire within all of us as we "Ignite the Light" in our towns to host the best games ever!!!
